

Ground Mounting Accessories for Low Voltage Fixtures

DESCRIPTION

Lumière offers a variety of ground mounting accessories for its low voltage fixtures. See the chart on the following page to confirm that the desired mounting accessory is available for use with the desired fixture.

GS01

1-1/2" x 6-3/4"

Ground spike with feed-through hole for wiring (cast zinc). Accepts 1/2" NPS threaded hubs.

GS03

2-3/8" x 6-5/8" (60mm x 168mm)

Ground spike with integral 12V wiring compartment (aluminum). Accepts 1/2" NPS threaded hubs.

GS04

1" x 16-1/2" (25mm x 419mm)

Ground spike with integral 12V wiring compartment (aluminum). Accepts 1/2" NPS threaded hubs.

GS05

1-7/8" x 17-1/4"

Ground spike with 2"-13" height adjustment (back polycarbonate): Enables fixture to be elevated as foliage grows (requires fixture with extended length lead wires).

GS08

1-7/8" x 8" (48mm x 203mm)

Ground spike with integral side or bottom wire way (black ABS). Accepts all 1/2" NPS Threaded hubs.

GS13

3-3/4" x 4-1/2" (95mm x 114mm)

3-prong ground spike (brass/stainless steel). Accepts 1/2" NPS male threaded hubs.

ORDERING INFORMATION

Order low voltage ground mounting accessories as separate line items. Specify quantities and (if applicable) finish. See chart on the following page to confirm that the desired mounting accessory is available for use with desired fixture.

Glare Shields

DESCRIPTION

Lumière glare shields reduce glare from the lamp source, providing comfortable illumination. They mount directly to the hood of the fixture and are secured by a locking set screw (provided). Glare shields are finished to match the fixture. See fixture specification sheets for available finishes.

FH20

3" x 5" (76mm x 127mm)

Use with PAR20 fixtures

FH30

4-3/4" x 3-3/8" (121mm x 86mm)

Use with PAR30 fixtures

FH38

5-3/4" x 4-3/8" (146mm x 111mm)

Use with PAR38 fixtures

FH203

2-1/2" x 4" (64mm x 102mm)

Use with MR16 fixtures

ORDERING INFORMATION

Order glare shields as separate line items. Specify quantities and finish.

Junction Boxes

DESCRIPTION

Lumière offers junction boxes to meet virtually any landscape lighting application.

MB1

4-7/8" x 2" (124mm x 51mm)

Use with line voltage or low voltage fixtures

Rectangular, above ground junction box for surface, or recessed mounting. It accepts Lumière's FS1 or FS2 fixture mounting covers (not included). Constructed from die-cast aluminum. Specify finish (BK, BZ, CS, VE, WT)

MBR1

4-1/8" x 1-5/8" (105mm X 41mm)

Use with line voltage or low voltage fixtures

Round, above ground junction box for surface, or recessed mounting. It accepts Lumière's RS1 or RS2 fixture mounting covers (not included). Constructed from die-cast aluminum. Specify finish (BK, BZ, CS, VE, WT)

MB4

4-9/16" x 2-1/16" (116mm x 52mm)

Use with line voltage or low voltage fixtures.

Round, in-ground junction box for ground mount. Constructed from die-cast aluminum. Specify finish (BK, BZ, CS, VE, WT)
