Cooper Poles

Round Straight Steel - RSS

Anchor Base Installation

Product Certifications & Features

Base Cover

- 2-piece metal cover, painted to match pole
- Optional ABS cover, 3 basic finishes
- Corrosion resistant hardware

Handhole

- Handhole Assembly, 3"x5" for 5"+ shaft, 2"x4" for 4" shaft, 1.6" x 3.5" for 3" shaft. 14" minimum above base
- Grounding provision Included
- Extra handhole locations available
- Metal handhole cover, painted to match pole
- Optional ABS Handhole cover, 3 basic finishes
- Corrosion resistant hardware
- Optional vandal resistant mechanism

Finish

BK - Black, Smooth

BZ - Bronze, Smooth

Featured Colors

- Highly durable TGIC polyester powder paint
- ASTM D3359 5B classification
- Optional hot-dipped galvanized pre-treat
- 10+ colors, custom finishes available

Domestic Preferences

BABA option supports both the USA Buy America (BAA) and Infrastructure Investment and Jobs Act (IIJA) domestic preference procurement requirements.

Ordering Information

Sample Number: RSS-10-4-11-AB-T23S-BK

Domestic Preference	Product Family	Mounting Height(ft) ¹⁸		Shaft Size-Wall Thickness	Installation Type
Blank = None BABA = Build America, Buy America funding ¹	RSS = Round Straight Steel	5 = 5' 8 = 8' 10 = 10' 12 = 12' 14 = 14' 15 = 15' 16 = 16' 18 = 18' 20 = 20' 22 = 22'	25 = 25' 30 = 30' 35 = 35'	3-11 = 3", 11ga(.120") ⁵ 4-11 = 4", 11ga (.120") ⁶ 4-7 = 4", 7ga(.188") ⁶ 45-11 = 4.5, 11ga(.120") ⁷ 45-7 = 4.5", 7ga (.188") ⁷ 5-11 = 5", 11ga(.120") ⁷ 5-7 = 5", 7ga(.188") 5-3 = 5", 3ga(.250") 6-7 = 6", 7ga(.188") 6-3 = 6", 3ga (.250") ⁹ 658-2 = 6-5/8", 2ga(.280") ¹⁰	AB = Anchor Base Installation

NOTES:
1. Only product configurations with this prefix are built to be compliant with the Buy America Build America Act (BABA). BABA is the minimum government compliance requirement for the Buy America Build America standards which is part of the Infrastructure and Investment Jobs Act (IIJA). Individual government agencies may have more stringent compliance standards. Please refer to the [DOMESTIC PREFERENCES](#) website or consult the CLS Domestic Preferences team for more information. Components shipped separately may be separately analyzed under domestic preference requirements.

5. Up to 20' mounting height.

6. Up to 25' mounting height.

7. Up to 30' mounting height.

9. 20' mounting height and above.

10. Up to 35' mounting height.

11. CLS Simplex arm ordered separately. Reference arm specification sheet, SMP arm.

12. Available only with galvanized pre-finish.

13. Requires approval. Additional lead times may apply.

14. Specify quadrant A, B, C, or D using mounting details, pg. 3. Specify height [z] in inches (Min = 12" above base. Max = 6' below pole mounting height). Consult factory for exceptions.

15. When location not specified by "[ABCD][z]", the default location will be A48 (same side as handhole, 4-feet from base).

16. Specify each one required, maximum of 4, with it's [ABCD][z] location.

17. Requires -GV = Galvanization option.

18. Refer to EPA tables for published size, lengths, and wall thicknesses. Shorter length available in 1/2-foot increments.

19. Not available 3-11.

20. ABS handhole cover not available for 3" and 4" shafts. If selected, ABS base cover and steel handhole cover will be included.

Accessories (Order Separately) ¹

BCP-RSS-xxxxxx = premium 2pc metal base cover ²

HCP-RSS-xxxxxx = premium metal handhole cover ²

BCABS-RSS-xxxxxx = 2pc ABS base cover (BK, BZ, or WH finish) ²

HCABS-RSS-xxxxxx = ABS handhole cover (BK, BZ, or WH finish) ²

VDF-RSS-xx = vibration dampener ³

ABKIT-RSS-xxxxx-STD = Anchor Bolt Kit and template ⁴

PTC-RSS-xxxxx = Pole cap assembly, ABS smooth black ⁴

GRD-KIT = Electrical grounding kit

DRL-PLUG-KIT-xxxx = drill plugs, painted to match pole finish ⁵

NOTES:

1. Add 'BABA-' as prefix for BABA-compliant accessories

2. xxxxxx = shaft size, wall thickness, and finish (ex. BCP-RSS-3-11-GM or BCABS-RSS-3-11-BZ)

3. xx = mounting height (ex. VDF-RSS-20)

4. xxxxx = shaft size and wall thickness (ex. ABKIT-RSS-3-11-STD, PTC-RSS-3-11)

5. xxxxx = Drill pattern and finish (ex. DRL-PLUG-KIT-N4-BZ)

Mounting Plate Details

A/B/C/D denote pole quadrants. Handhole always at 'A' or 0°

NOTE:
If custom base option required, please specify BMODxxxx option and provide drawing. Approval required, additional lead times may apply. Premium metal base cover included.

Shaft size & guage	Base Size		Anchor Bolt Details ¹		
	Square Size (S)	Thickness (T)	Bolt Circle (BC)	Bolt Size	Bolt projection (BP)
3-11, 4-11, 4-7, 45-11, and 5-11	8	0.75	8.5	.75 x 17x 3	3.0 - 3.5
45-7, 5-7, 5-3	10	1.00	10	1 x 36 x 4	3.5 - 4.0
6-7, 6-3	11	1.00	11	1 x 36 x 4	3.5 - 4.0
658-2	11	1.25	11	1.25 x 42 x 6	4.5 - 5.0

NOTES:

Dimensions in inches

1. Anchor Bolts and template included.

Handhole Assembly Details

Includes Cover, locking bar, gasket, and bolt

4" Shaft - 2" x 4"

3" Shaft - 1.6" x 3.5"

5"+ Shafts - 3" x 5"

location

Tenon Adapter Details

Welded to top of pole with .25" thick plate

Tenon Adapter	Shaft Size - S (in.)	Length - L (in.)
T23S	2-3/8"	4"
T23L	2-3/8"	6"
T300	3"	4"
T350	3.5"	5"
T40S	4"	6"
T40L	4"	10"

CLS Simplex Fitting Details

Simplex fitting welded to pole to match simplex-ready arms. Positioning on pole based on preferred arm length and rise.

Simplex Option	Arm Length	Arm Rise
S13	2'	13"
S15	2.5'	15"
S19	4'	19"
S24	6'	24"
S30	7.5'	30"

Convenience Outlet Details

Steel provision welded to pole for use with GFCI, duplex, and single receptacles.

NOTES:

- Specify quadrant A, B, C, or D using mounting details, pg. 3. Specify height [z] in inches (Min = 12" above base. Max = 6" below pole mounting height). Consult factory for exceptions.
- When location not specified by "[ABCD][z]", the default location will be A48 (same side as handhole, 4-feet from base).

Couplings (Internal & External Threads) Details

Steel provision welded to pipe for additional luminaire/accessory mounting needs.

Internal Coupling	Length (in.)	OD (in.)	ID
ITC050	1.56"	1.07"	1/2" NPT
ITC075	1.63"	1.32"	3/4" NPT
ITC100	2.00"	1.59"	1" NPT
ITC125	2.06"	1.91"	1-1/4" NPT
ITC150	2.06"	2.21"	1-1/2" NPT
ITC200	3.13"	2.76"	2" NPT

External Coupling	Length (in.)	OD	ID (in.)
ETC050	1.13"	1/2" NPT	.62"
ETC075	1.38"	3/4" NPT	.82"
ETC100	1.50"	1" NPT	1.05"
ETC125	1.63"	1-1/4" NPT	1.38"
ETC150	1.75"	1-1/2" NPT	1.61"
ETC200	2.00"	2" NPT	2.07"

NOTES:

- Specify quadrant A, B, C, or D using mounting details, pg. 3. Specify height [z] in inches (Min = 12" above base. Max = 6" below pole mounting height). Consult factory for exceptions.
- Specify each one required, maximum of 4, with it's [ABCD][z] location.

Extra Handhole with Cover Details

Handhole cover with hardware (specify pole quadrant and height in CAT logic selection)

2-Piece Base Cover Details

2-Piece ABS Plastic Base Cover with Press-in ABS Hardware (offered in Bronze, Black, and White only – color may not exactly match the specified pole)

Internal Coating Details

8 feet maximum from base inside pole; 3 mils of epoxy or "tar"

Vibration Damper Details

Factory installed for minimizing 2nd mode vibration ¹

NOTES:

1. CLS employs a factory-installed chain dampener encased in plastic tubing. For details on vibration mitigation, please see CLS White Paper [WP513001EN](#)

Tamper Resistant Handhole Cover Details

Premium metal handhole cover with included tamper-resistant fastener and screwdriver

Camera Mounting Bracket Details

Welded bracket provision for camera mounting

NOTES:

1. Specify quadrant A, B, C, or D using mounting details, pg. 3. Specify height [z] in inches.
2. Drill pattern matches Axis® TQ5001-E pole mount for M55, P56, and Q60 cameras. Stainless steel 1/4-20 bolts with nylon lock nut recommended.
3. For any other camera application, please specify via drawing. Additional lead-times may apply.

Certification Details

Certification	Description
	CSA: CSA® listed with label
	UL: UL® listed with label (includes NEC)

Finish Options

Finish	Description
DP1	DuraPro Level 1 -- Premium finish minimizes corrosion risk, extends finish life, and improves adhesion
DP3	DuraPro Level 3 -- Galvanization after fabrication plus premium finish provides superior corrosion resistance, adhesion, and extended finish life

Anchor Bolt Shipping Options (Add as suffix)

Standard Kits = 4 fully galvanized anchor bolts, 8 galvanized nuts & washers, and template

Option	Description
L/AB	Less Anchor Bolts and Template Kit <i>Ex. RSS-10-3-11-AB-BK-L/AB</i>
EAB	Anchor Bolts and Template Kit Shipped Early (Supports starting the foundation quickly) <i>Ex. RSS-10-3-11-AB-BK-EAB</i>

Additional Services Offered

Services are offered to support the engineering and design community when required.

Service	Description
DSGN-FOUNDATION-[XX] ¹	Foundation Design; per pole type, per revision
DSGN-PE-POLE-[XX] ¹	Professional Engineering Stamped Drawings; per pole type, per revision
DSGN-POLE-CALCULATIONS ²	Pole Calculations; per pole type, per revision
DSGN-POLE-SUBMITTALS ²	Pole submittal Drawings; per pole type per revision

NOTES:

1. XX to be replaced by state abbreviation (EX. DSGN-FOUNDATION-GA).

2. Original and first revision free of charge.

NOTES:

1. Maximum weight based on 25 pounds per square foot of EPA. Weights lower than maximum will result in higher EPA values.
2. EPAs based on shaft properties with wind normal to flat. EPAs calculated using base wind velocity as indicated plus 30% gust factor.
3. For pole heights that are not shown, use the values for taller poles.
4. The Cooper Lighting Solutions on-line configurator has detailed maximum EPA and weight to refine the design.

NOTES:

1. The maximum EPA values are based upon the published maximum weight noted. Lower weights will result in higher EPA values.
2. Includes Florida Building Code 2023/2020, AASHTO LRFD-LTS-1, and ASCE-7 standards.
3. For pole heights that are not shown, use the values for taller poles.
4. The Cooper Lighting Solutions on-line configurator has detailed maximum EPA and weight to refine the design.

NOTES:

1. The maximum EPA values are based upon the published maximum weight noted. Lower weights will result in higher EPA values.
2. Includes Florida Building Code 2023/2020, AASHTO LRFD-LTS-1, and ASCE-7 standards.
3. For pole heights that are not shown, use the values for taller poles.
4. The Cooper Lighting Solutions on-line configurator has detailed maximum EPA and weight to refine the design.

Considerations

DESIGN CONSIDERATIONS - VIBRATIONS AND NON-GROUND MOUNTED INSTALLATIONS

The information contained herein is for general guidance only and is not a replacement for professional judgment. Design considerations for wind induced vibrations and non-ground mounted installations (e.g., installations on bridges or buildings) are not included in this document. Consult with a professional, and local and federal standards, before ordering to ensure product is appropriate for the intended purpose and installation location. Refer to the Cooper Lighting Solutions Light Pole White Paper for risk factors and design considerations. [Learn more.](#)

NOTE: The [Limited warranty](#) for this product specifically excludes fatigue failure or similar damage resulting from vibration, harmonic oscillation or resonance.

Specifications and dimensions subject to change without notice. Consult your lighting representative at Cooper Lighting Solutions or visit www.cooperlighting.com for available options, accessories and ordering information.

VIBRATION

Vibrations may cause damage to structures, including poles. Vibrations are unpredictable, and there are many factors and variables that can cause damaging vibrations. Many wind conditions exist that can create damaging vibrations to poles and luminaires, such as constant winds between 10-30 mph. Although all pole types can experience vibration, straight square poles seem to be most prone. Vibration dampeners and/or a round tapered design may be used to mitigate damage from vibrations, but there is no guarantee damaging vibrations will be prevented. Vibration dampeners are not included with this pole but can be ordered separately. Consult with a professional, and local and federal standards, to ensure this pole is appropriate for the intended purpose and installation location. Refer to Cooper Lighting Solutions' Light Pole [White Paper](#) for risk factors and design considerations.

MAINTENANCE

Perform inspections periodically. A prudent inspection schedule would be: one week after installation, one month after installation, yearly after installation, and following any major wind event. During the inspection, check the poles for cracks. If cracks are detected, remedial action is required. Recheck anchor bolt torques and re-tighten according to the recommended torque values. Check for missing covers and pole caps and replace as necessary. Check the pole for corrosion and deterioration of the finish. Should there be corrosion or deterioration, take remedial action to correct.

WARNING: Customer is responsible for engineering analysis to confirm pole and fixture compatibility for all applications. Refer to pole white paper [WP513001EN](#) for additional support information. Before installing, make sure proper anchor bolts and templates are obtained. The use of unauthorized accessories such as banners, signs, cameras or pennants for which the pole was not designed voids the pole warranty and may result in pole failure causing serious injury or property damage. Information regarding total loading capacity can be supplied upon request. The pole warranty is void unless poles are used and installed as a complete pole and luminaire combination. This warranty specifically excludes failure as the result of a third party act or omission, misuse, unanticipated uses, fatigue failure or similar phenomena resulting from induced vibration, harmonic oscillation or resonance associated with movement of air currents around the product.

Specifications and dimensions subject to change without notice. Consult your lighting representative at Cooper Lighting Solutions or visit www.cooperlighting.com for available options, accessories, and ordering information.
