

Adaptable lighting that is flexible for better design and quality of light

LyteProfile 6" square LED

The next generation of Lightolier LyteProfile LED downlights have been redesigned to be flexible for changing project needs. Now with a plug-and-play power and control line receptacle, the reflector and light engine combo is quick and easy to install. The newly designed architecture uses the same frame as the EasyLyte and Calculite families. The shared frame concept creates a future-proof luminaire that provides job site flexibility in both installation and inspection, while minimizing the impact of unexpected design changes and offering a good selection of choices.

Benefits

- 60° cut offs ensure proper positioning of optics providing better visual comfort
- The combined light engine and reflector allow tool-free installation using quick connect technology
- Standard 120/277V frame simplifies planning and installation
- Easy troubleshooting, changes and upgrades to products post installation
- Uses the same UniFrame frame as the EasyLyte and Calculite families allowing 50K+ product configurations

Features

- 4" & 6" Round & Square reflector Downlight & Wall Wash options
- 3 Flange options available: Matte White or Black, Polished
- 80CRI; 2700K-5000K options
- 2-part reflector and light engine combo
